CIRES Associate Director for Science – <http://cires.colorado.edu/jobs/cires-associate-director-science>

Applications are now being accepted for the CIRES Associate Director for Science position.

This is a slight modification to the role I have filled over the last 5 years, but this position really lends itself to growth because the role evolves over time in response to institutional needs. I have truly enjoyed my time at CIRES, and it has been a pleasure working with an amazing group of administrators and scientists. I am thrilled about my next opportunity, but I will dearly miss working with such a stellar group of people.

I am happy to answer any questions from people interested in applying.
