FORUM

Looking for references for inclusion in the National Climate Assessment - Climate and Health Chapter
Submitted by DISCCRS 7 alum Jalonne L. White-Newsome
I am writing to ask for your help. I was invited to be one of the authors for the next National Climate Assessment (NCA), Climate and Health chapter, to craft a short summary of literature on “populations of concern”, specifically environmental justice issues related to climate and health. For those of you who might not be familiar, the NCA is a document that sums up all of the most recent evidence in the US about climate change…It becomes one of the preeminent resources that documents the impacts of climate change. With that said, I want to include as much recent literature – both peer-reviewed and gray – into the NCA. Because many of you are very much engaged, or writing or have published materials that might be relevant, I would greatly appreciate if you could send me ANYTHING you think might be relevant or useful.

Please submit citations, literature on environmental justice issues related to climate and health to JLWhite-Newsome@kresge.org. - http://www.globalchange.gov/what-we-do/assessment

MEETINGS AND SHORT COURSES

US Permafrost Association: Early Career Travel Grant Announcement - 2017 - Travel grants for U.S.-based students and post-graduate researchers (within six years of their terminal degree) to attend conferences, field schools, or pursue field studies directly relevant to permafrost science and engineering in 2017. Application deadline: May 15, 2017. - http://www.uspermafrost.org/
JOBS

Looking for more job-hunting help? Please visit the News & Links page of the DISCCRS website (http://disccrs.org/news) for a list of climate change-related job listservs, or our Career Resources page (http://disccrs.org/career) for a great collection of resources for developing professional skills, locating funding opportunities, crafting grant proposals, and more.

DISCCRS NEWS electronic newsletter
Editor: C. Susan Weiler, Whitman College
Associate Editor: Paul H. Yancey, Whitman College
Contributing Editor and Production: Nancy Rose, Whitman College info@disccrs.org

Newsletter Submissions: Please submit job and other announcements of interest to recent Ph.D.s to info@disccrs.org. Send a short message in the body of an e-mail message and link to any appropriate websites.

Register a recent PhD dissertation and subscribe to DISCCRS News: http://disccrs.org/register
Students may subscribe to DISCCRS News without registering PhD dissertation: http://disccrs.org/subscribe

Address changes: Send address updates to info@disccrs.org Please indicate both former and new address so we can delete old addresses

Purpose: DISCCRS News was created to distribute information and resources of particular interest to U.S. recent PhDs engaged in interdisciplinary climate-change research and is generally sent every week on Thursdays. It also provides an international forum for the exchange of information and opinions regarding research, professional and social issues to foster a global sense of community among recent grads. The views and opinions expressed do not necessarily reflect those of NSF, NASA or any other funding agencies or sponsoring societies. The editors reserve the right to edit or reject material submitted to this newsletter.
